REAL ESTATE

SECURITY CONSULTING

IN LUXURY REAL ESTATE PROMOTIONS, WHETHER RESIDENTIAL COMMUNITIES, BUILDINGS OR PRIVATE RESIDENCES, IT IS ESSENTIAL TO HAVE SECURITY SERVICES THAT LIVE UP TO CLIENTS' EXPECTATIONS AND THAT PROTECT BOTH PROPERTIES AND RESIDENTS EFFECTIVELY AND DISCREET.

- RISK ANALYSIS TO IDENTIFY THE MOST APPROPRIATE MEASURES IN EACH PROMOTION.
- IMPLEMENTATION OF HIGH-QUALITY SYSTEMS, ARE FUNDAMENTAL TO DETER CRIMINALS AND PROVIDE OWNERS WITH THE GREATEST PEACE OF MIND.
- PROVIDING PERSONNEL WHO ARE TRAINED TO DETECT AND PREVENT THE RISKS.
- BOTH OUR INSTALLERS AND OUR SECURITY PERSONNEL ARE SUBJECT TO STRICT CONFIDENTIALITY AGREEMENTS TO ENSURE MAXIMUM DISCRETION.

ALARM SYSTEM

- Design, installation and maintenance of alarm systems for homes.
- Exterior and interior video surveillance cameras with recording.
- Sensors placed on doors and windows, as well as motion detectors in key areas of the house.
- May include smoke and carbon monoxide detectors, as well as flood sensors, to alert you of fire or water emergencies.
- In case of intrusion or incident, the system notifies a remote monitoring station, with a call to the police, if necessary.
- Real-Time Alerts: Instant notifications to the owner's mobile phone when suspicious activity or an emergency is detected, allowing a quick response even when the owner is away from home.
- Viewing cameras in real time from the owner's smart phone.

SMART HOUSE

- Integration of the home automation system that allows you to manage the alarm system, blinds, heating, air/conditioning and other devices from the owner's keyboard or mobile phone remotely.

ACCESS CONTROL

Automatic access control in urbanizations, designed to regulate and supervise the entry and exit of people and vehicles in residential communities.

- Automatic gates or barriers through access cards, remote controls, PIN codes or license plate recognition.
- The system can be controlled remotely or by personal.

VIDEO SURVEILLANCE SYSTEM

- Surveillance cameras that are strategically located at the key points in the urbanization to monitor vehicle and people traffic.
- These cameras are used to deter crime as well as record any incidents that occur in the area.
- Integrated with the access control system to verify the identity of a person.

SAFES

- A perfect combination of quality, functionality and safety.
- Maximum security due to its Grade IV certification.
- Available in different sizes, colors interior and exterior finishes with wide range of accessories

SPECIAL ENCLOSURES

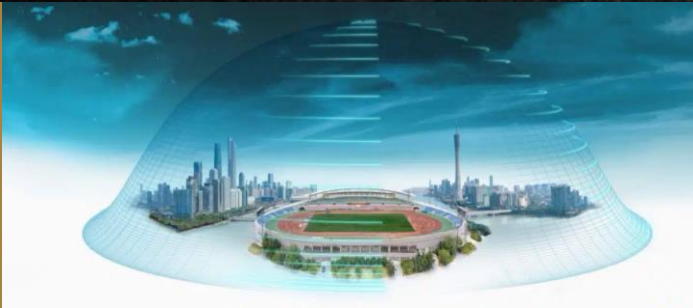

BUNKERS & PANIC ROOMS

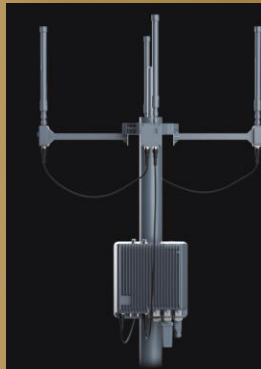

- Studying, design and construction of bunkers are adapted to the purposes of the shelter according to the geographical location, specific security needs and budget of its occupants.
- We suggest the most strategically appropriate location of the bunker in the property, that allows quick and safe access in case of emergency.
- Panic Rooms are situated inside of the main home, they are discreet and well camouflaged to avoid detection by intruders.
- Equipped with armored doors, windows and walls, emergency communication systems, and access to basic supplies for survival for a short period of time.

ANTI DRONES
